EXPERIENCE

DAVID YURMAN

06/2023 - 04/2024

CG Intern - New York, NY

Worked as a CG generalist focusing on lighting and shading for primary project requiring high volumes of CG jewelry packshot assets for wholesale market contributing to 40% of sales annually, as well as additional internal and social media projects. Assisted in training new hires, reviewing demo reels and interviewing candidates for new hires and potential interns, and providing feedback on work from team. Curated information from process books from fellow interns to develop and maintain a primary CG Process Handbook for department use.

SCADpro x NASA - SPONSORED COURSE

01/2023 - 03/2023

CG Lighting & Generalist

Worked collaboratively in a subteam as a CG generalist focusing on lighting and compositing for creative content communicating the science of the ICESat-2 mission.

THE MILL NY

09/2022 - 11/2022

3D Intern - Remote

Worked in various disciplines in the CG pipeline through multiple exercises with the guidance of my manager and mentor, and assisted my mentor in project tasks.

RAVEN SOFTWARE (ACTIVISION BLIZZARD)

06/2022 - 09/2022

Lighting Art Intern - Remote

Trained as a lighter in the pipeline and proprietary tools under the supervision of my manager and mentor, finishing the program working on an unannounced Call of Duty project.

BE THERE SHORT FILM

07/2021 - 06/2022

Lighting Supervisor

Organized sequences and shots to assign to lighters and track progress, and supervised/worked on environment and shot lighting and compositing for *Be There*, a SCAD student thesis film. Work primarily conducted virtually.

SCAD ANIMATION STUDIOS

03/2021 - 07/2021

Lighting and Compositing Artist

Worked within the lighting team on shot lighting and compositing on the student 3D animated short film "Hex Limit." Work was conducted virtually.

SCAD x THE MILL

03/2021 - 05/2021

Lighting and Look Development Artist

Worked collaboratively on lighting and look development for a fully CG mock commercial under guidance from mentors at The Mill in a 10 week virtual collaborative production simulation class.

THE HOUSE WHERE THEY DWELL

01/2021 - 03/2021

Secondary Prop Modeler

Created secondary prop models for the student video game *The House Where They Dwell* by Half Brain Games, a team of SCAD student artists.
